Student Voice Committee: A Guide for Teaching & Learning Staff

At a Glance

The Student Voice Committee (SVC) is a partnership between academic staff and academic representatives to gather, discuss and explore solutions for cohort-level feedback. It is a piece in the wider University Student Voice Strategy (SVS).

The Role of Teaching & Learning Staff

From the 2025/26 NSS, we know that students want more clarity that their feedback is being acted on. Even though a lot is being done at top level to improve the teaching and learning experience, students' interactions are largely constrained to their unit leads and lecturers. So, it is important that teaching staff are aware of the student voice strategy to be able to facilitate and champion the student voice at a local level.

Stakeholders in the Student-Staff Liaison Committees

Students

The target demographic that feedback is collected from and the outcome communicated to

Teaching Staff

Students main port of call in their learning journey. You play an important role in communicating feedback outcomes to students

Academic Reps

Student leaders who represent the views of students acting as a link to staff in SVC meetings.

Students' Union

Plays a role in setting the strategy for the student voice, including Rep recruitment. They provide a link to the central University.

Academic Leads

Staff representatives for the student voice meetings.

Student Support Hubs

Coordinate the Student Voice meetings and collect feedback data.

Other Resources (FBMH Specific)

Here's where you can find the student voice meeting summaries:

- Link to all the meeting minutes from SBS courses
- Link to all the meeting minutes from Dentistry
- Link to all the meeting minutes from Medicine
- Link to contact the SHS Hub for meeting summaries

For more information about Academic Representation:

- Link to Rep info for staff
- Email for all Rep-related questions to be directed to the SU Education team
- Email for the Students' Union FBMH Officer
